BOND TUF PLUG

Instant Rapid Setting Plugging Mortar

DESCRIPTION

BOND TUF PLUG is specially formulated cementitious compound which sets rapidly. BOND TUF PLUG can be very effectively used in situations where setting time of compound should be less.

ADVANTAGES / BENEFITS

BOND TUF PLUG helps the cementitious compound set very rapidly thereby stop leakages. BOND TUF PLUG can be applied easily as only a particular amount of water has to be added and mixed according to this application.

1 part of BOND TUF PLUG can be mixed with 3 parts of fine sand and used for larger applications and hence it is economical. BOND TUF PLUG is free from chloride and hence does not affect RCC

CHARACTERISTICS

Colour: Grey Appearance: Free flowing powder

AREAS OF APPLICATION

For stopping leakages in tunnels, cellars, pits, sewerage systems, pipes etc., For plugging works, quick repairs of concrete, screeds, plasters, brick work etc., For areas where quick setting is required.

DIRECTIONS FOR USAGE

The surface where BOND TUF PLUG has to be applied should be free from all dust, grease and oil. For repairing work, the areas to be patched have to be cut back up to 15mm and given good mechanical key, do not feather edge for removing light oil or grease contaminations. To plug leaks, crack openings are to be cut open to 20mm square in shape, remove all loose material and debris. All surfaces to be dampened with water prior to application of BOND TUF PLUG.

PRECAUTIONS

BOND TUF PLUG is non-toxic. Splashes if any should be washed with plenty of water. When it comes in contact with eyes take medical advice..

SUPPLY

BOND TUF PLUG is supplied in 1 and 5 KG packs.

SHELF LIFE

Shelf life is 12 months from date of manufacturing in unopened containers.

Store at cool & dry place, away from sun heat & fire
